**11-day Trip

LIMA Days 2-3

A special Architect will be your guide as you visit Lima's historic central plaza featuring multiple architectural styles. A trip to Barranco due to its variety of architectonic buildings and its new culinary destinations will provide a definite sampling of contrasts. Plus 3 great museums!

AREQUIPA Days 4-5

You'll fly to Arequipa and delight in its colonial *sillar* construction which gives it the nickname, *La Ciudad Blanca*, or The White City. A local Architect will

guide you through this city. A highlight will be the Santa Catalina Monastery, a unique blend of Colonial & Mestizo architecture. This sets it apart as unique when compared to any other colonial

architecture of this area or period.

You'll also visit the Museum of the Ice Maiden, Juanita, who was discovered in 1995. In that same year, Time Magazine chose her as one of the

World's Top Ten Discoveries!

CUZCO Days 6-10

You'll take the quick 60-minute hop to Cuzco. After you acclimatize, a local architect will explain Cuzco's unique combination of architectural styles on your walking City Tour of the ancient Inca capital city. The next day you'll visit the Chincheros traditional Sunday market. After that you'll admire the incredible Inca ingenuity and stone work as a special guide leads you through Ollantaytambo.

Guaranteed to be a major highlight of your trip, you'll take the early morning train the next day to visit Machu Picchu all day long! It is perhaps the most familiar icon of Inca civilization. You may just break your own record for "*Most Photos Taken in one day!*"

The next 2 days you'll tour the areas around Cuzco including Sacsayhuaman, Tambo Machay, and Q'enqo, which means "zigzag or labyrinth" & amazing churches like Andahuaylillas, referred to as *South America's Sistine Chapel*.
